Barre City Water Alert

At approximately 7:00 AM today, there was a water main break at the intersection of Burnside Ave. and Grace Ave. in the Town of Barre, which is served by the City of Barre Water System. City staff isolated the break by 8:00 AM, which will create a water outage for the following streets: Camels Hump Dr., Maplewood Ave., Hillcrest Ln., Meadow Ln., East St. Ext., Burnside Ave., and Grace Ave.

Repairs are projected to take 4 to 6 hours.

We anticipate repairs to be completed by 2:00 PM or earlier at this time. No boil water order is planned for the Barre City Water System. Water may appear discolored once repairs have been completed and we recommend that you run a cold water faucet for 10 minutes to flush out any sediment if you experience discolored water.
