**Topic(s) Discussed (use additional sheets as necessary):** Bill Ahearn led the group on a walking tour of our proposed path on Granite Street. The path would connect to Enterprise Alley and eventually to our Metro Way segment. The sidewalk on the bridge would be expanded and a fiber polymer would be used. The path would continue on the same side as the existing sidewalk. Parking would be on one side of the street. There would be approximately 5 utility poles that would require relocation. Improvements to this section would enhance pedestrian and bike travel into the City and to the local business district. The walk was ahead of a proposed VTRANS grant application for funding of the project with an 80/20 match.
